

Checklist

Please ensure that you bring all of these items when you drop your dog off for training.

- ☐ Prong and e collar if we've previously introduced them to your dog
- ☐ Identification tag or plate attached to the flat collar, that includes the dog's name and a phone number.
- ☐ Leash between three and six feet in length. (No Chain Leashes or Retractable Leashes)
- ☐ Food enough for your dog's stay. (It is a good idea to pack a little bit extra food, just in case)
- ☐ Chew- hard chews relieve stress, good choices: Benebone, Nylabone, deer antler- no rawhide. For safety, toys and chews must be longer than the dog's lower jaw.
- ☐ At least 24 oz of small, soft training treats your dog likes. It will say "Training Treats" on the bag if it's the right size. (Not regular size treats, not crunchy treats). This is important to your dog's training. These are used for training and we use a lot of them! It is necessary that they are small, soft and that your dog really likes them! Most dogs like **BillJac Little Jacs** and the Little Jacs are just the perfect size)
